

Health / Aged Care

108 Tarleton St, East Devonport

Tarleton St East Devonport 17

New Development

In partnership with L&H Devonport, the scope involved undertaking comprehensive lighting calculations to ensure compliance with safety standards and regulations. To streamline the installation process, solar fittings were utilised, providing an efficient and effective solution for the project's lighting requirements. This included the incorporation of five metre tapered round poles and the installation of Cardiff 30W and KARZI 4W bollard lighting fixtures.
