Hungry Jacks T1 Melbourne Airport 21

Hungry Jack's T1 Melbourne Airport

LED New Development

Hungry Jack's, a renowned fast-food chain in Australia, consistently undertakes innovative projects and updates of its restaurants. At Terminal 1 in Melbourne Tullamarine Airport, the spaces were designed to ensure a seamless and aesthetically pleasing layout. Meticulous attention was paid to the illumination of the restaurant, with artificial lighting thoughtfully selected to complement the abundant natural light streaming through the expansive windows.

Through skillful layering of aesthetics, large circular pendants were strategically positioned above the dining areas, with the addition of green plants above the lights to offset the black ceiling. Large oval pendants mirror the outline of the tables below, creating a harmonious and visually striking interplay of design elements. For broader, ambient lighting, the Empress downlight, Alpha tracklight, and Neon Flex strip were incorporated to harmonise with the grand circular and oval pendant lights.

The design of this space was carefully tailored for optimal functionality, with a user-friendly approach to lighting placement, achieving a perfect level of luxury.

PROJECT DETAILS

Location	Melbourne Airport
Architect	BD Architecture : Interiors
Engineer	Floth Sustainable Building Consultants - Melbourne
Builder	Leeda Projects Pty Ltd
Electrician	Brolec Pty Ltd Electrical Contractors
Completion	2023
