Phillip Oval Redevelopment AFL Pavilion

Afl Pavilion Canberra 1

Redevelopment of the existing pavilion at Phillip Oval. Works include the construction of a new second floor and refurbishment of ground floor facilities.

Players and spectators can now experience a better sporting experience with a new look pavilion at Philip Oval that has a second level featuring a community area, coaches’ boxes, scorer and umpire rooms, as well as a multi-purpose room.

Downstairs, upgrades to the players’ change rooms have also been completed to make game day more comfortable for football and cricket teams. The upgrades make Phillip Oval the second tier oval for AFL and cricket after Manuka Oval.

Decrolux provided the lighting throughout, including DALI compatible light fittings.
