

# DENVER MK-II 10W

## Square Exterior Wall Light

The DENVER MK-II is an outdoor wall-mounted up/downlighter that features an adjustable beam angle ranging from 15-120 degrees, allowing an option to have a narrow beam facing up, or make them symmetrical. The fixture uses a COB Cree LED for reliable and efficient illumination and is constructed from durable, weatherproof materials including aluminium and glass. Its simple square design and textured powder coat finish provide a stylish and practical lighting solution for outdoor spaces.
