

DEPENDO

Ceiling Anchor System

Dependo Ceiling Anchor System is a ceiling anchor system is capable of suspending heavy light fittings, concealed from below by a flush disc. Simple and neat - minimalistic to suit the modern home interior.

Crucially, Dependo allows the installer to fit-off with unprecedented ease – All one needs to do is make a circular hole at the suspension/electrical feed point and install a surface socket there. The rest is plug and play, and safety extra low voltage!
