

GRAFTON 10W

CRI95 LED Strip Light IP67

The GRAFTON LED Strip Series is a versatile and durable lighting solution suitable for both indoor and outdoor applications. With an IP67 rating, it offers protection against dust and water ingress, making it ideal for use in challenging environments. The ability to cut the strip down to size allows for customization and flexibility in designing lighting layouts that meet specific project requirements. The flexible printed circuit-board construction adds to its versatility and allows it to be installed in curved or irregular surfaces. Overall, the GRAFTON LED Strip Series is a reliable and practical choice when looking for a robust, waterproof LED strip lighting solution.
