MORGAN 16W

Up/Down Exterior Wall Light

The big brother of the MORGAN 12W, the MORGAN 16W is a slimline outdoor wall light with a two-directional light beam that blends seamlessly with modern exteriors. The integrated LED is housed behind a sealed prismatic glass allowing for high lamp efficiency. The waterproofing mechanism on the installation side is achieved through overlapping components, and not through mechanical pressure, ensuring a perfect IP65 enclosure. In application, the MORGAN 16W is the perfect complement to its one-directional smaller brother.
