

NEO K8.3

Rectangle Mount Ring

Classic Series

Proven. Quality. Customisable

The K8.3 completes the extensive range of timeless, refined and easy-to-use downlights. A distinctive feature of the 8.3 is the asymmetrical design. In addition to its functional purpose of providing maximum light, the asymmetry of this fixture facilitates a linear installation, providing direction and elegance to the room. Both the single and double lamp version of the K8 Series are available with high performance NEO Downlight Modules. The NEO Range provides a perfect alternative for classic light sources, with all the benefits of led. Aesthetics, efficiency and functionality come together in the K8.3.
