

STIX 2W

Exterior Path Light

Simple elegant lines with the benefit of an adjustable head makes our Stix Path Light a gorgeous addition into any landscaped garden. The warmth of copper and brass that ages gracefully over time to blend into its surrounds is best positioned along pathways, driveways and along steps. The Stix features an adjustable head that can either direct the light downwards at a 90° angle or anywhere up to a vertical position allowing it to be positioned in any number of applications.

The fixture is solidly constructed to suit urban or seaside landscapes and sits at 580mm high which is perfect for locating next to shrubs or pruned hedges. Included is a premium 2W Warm White G4 LED that is compatible with all our LED Drivers.
